ROME, N.Y. — The Air Force Research Laboratory (AFRL) Information Directorate has awarded a four-year, \$5,216,499 contract to Research Associates of Syracuse Corp., East Syracuse, for research to improve electronic intelligence (ELINT) technology.

“The company will conduct a series of studies and develop analysis tools and software,” said William C. Ziesenitz, program manager in the directorate’s Information and Intelligence

Exploitation Division. “The focus of the effort will be integration, testing and evaluation of electronic intelligence techniques.”

The technology is expected to lead to advanced signal processing equipment and procedures that can be used on a variety of ELINT platforms.

Gail A. Person of the directorate’s Contracting Division negotiated the agreement. @
